What can you expect from a Stay-Sail & Dive package

We'll pick you up from the airport and you'll have an easy check in at your apartment. You can chill out the rest of the day. The next 3 days you'll be made comfortable with diving on Bonaire by doing a guided dive every morning and a dive by yourself with your private pick-up truck in the afternoon. You'll spend the evenings at your luxury apartment or you go out to eat, drink, dance?...

After 4 nights at your apartment it's time to move and check in on the Phoenix and sail & dive during the day to end at our private mooring. When the sun sets we'll leave you on board to experience the night on the Kralendijk shore line. The next 2 days will be filled with sailing, chilling & diving at Klein Bonaire and several dive sites (*no more diving 20 hours before you fly). Day 7 it's time to check out.

During your liveaboard the captain and crew will join you for a maximum of 6 hours per day to take you out sailing/diving/chilling. On the nights you've got the boat for yourself. Optional, a chef on board can be arranged. Cook yourself or sail to one of the many restaurants by using the dinghy. If you don't like to stay out overnight, we'll dock at our private dock where you can also enjoy beautiful views over the Caribbean sea.
